

FATHER REGAINS CUSTODY OF HIS SON OUTLAW UNDER ARREST IN ARIZONA

His Paternal Affection Revived After Lapse of Seven Years.

El Paso, Tex., July 24.—Because Francisco Marquez pleaded with Judge Elyar not to separate him from his 12-year-old son, Luis Marquez, the court temporarily gave the father the custody of the child, and the application of Jose Chavez, an uncle of the boy, for guardianship is still pending.

Love for their sister's child was expressed by Jose and Andreas Chavez, uncles of the boy, and also the desire that he be given proper education. The boy had been living at the home of Andreas Chavez near Socorro, N. M., when he was seen on the streets of that place recently by his father and taken to the home of Genaro Gonzalez, a saloonkeeper.

The uncles objected to their sister's child being raised in the family of a liquor dealer, and so stated to the court. The testimony brought out the fact that the boy was receiving \$2 a month for his work from Gonzalez and it was alleged that his father took him to that place that he might have a place to live.

Says He Loves the Boy.
The father's plea was that he could clothe the boy on his wages of 75 cents per day, and he begged the court not to take his son from him. He admitted that he had not provided for his children during the past seven years, but told the court he loved the boy, and desired to have him where he could see him.

The attorneys representing the application for guardianship expressed the opinion to the court that the revival of the spark of paternal affection was merely because the boy had reached the age where he could earn something and that the father wanted him in a saloonkeeper's family because he could secure liquor as a result of his earnings.

The attorney admitted that Marquez had been denied the privilege of lying idle and intoxicated about his home of Andreas Chavez, where his boy had been staying, but such denial had been because of his condition.

It was cited that the youth would be given a home with his father, where he desired if he was not intoxicated, and it was agreed that the boy should not be worked more than any other youth of his age.

Said He Had to Work.
When testifying Luis Marquez told the court he had been working in the hayfield when eight years old by Andreas Chavez, but the story was not credited.

It was further cited by the attorney for Chavez that the boy had been schooled by falsifying his father and that such schooling would result in his becoming a follower in the footsteps of the parent.

The court decided to give the father a chance to provide for his son, the condition being that the first time he is intoxicated the case will again be brought before the county judge and final action taken on the application of Jose Chavez for the guardianship of his sister's child.

MAGILLS EN ROUTE HOME FOR TRIAL
Los Angeles, Cal., July 23.—Fredrick Magill and his wife, in custody of Sheriff Harvey Campbell, left Clinton, Ill., left Los Angeles last night on their long trip to their home, where they are charged with the murder of Magill's first wife.

The Atchison, Topeka & Santa Fe train leaving San Diego this morning bore the Magills. If one had not known of the charge they would have supposed that it was a party on a pleasure jaunt. The only thing that lent mystery to the whole affair was the vigilant watch that Sheriff Campbell kept on his prisoners and the heavy black veil that Mrs. Magill wore.

The strange influence that Magill seems to have on his wife caused many people to hint at hypnosis. Nobody who has met the couple will deny that his wife is absolutely under his influence, and his slightest wish is her law. This dual personality is a puzzle to everyone and only hypnosis, many say, could explain her strange actions in regard to the stand she has taken. Never, if report be true, has she uttered a word of sorrow over the death of her mother. Even when her anger was greatest at the time of the arrest, a word from her father soothed her.

The trip from San Diego was enlivened by many anecdotes told by Magill. Mr. Campbell and Mrs. Magill talked of dress, comic operas and the trips the latter had taken before her arrest.

"I am just dying to see 'Peter Pan,'" exclaimed the accused woman.

AUTO BUS MAY WIN CARMEN'S STRIKE
San Francisco, Cal., July 24.—The auto-bus is playing an important part in the street car strike here.

The carmen's union has leased 40 'buses of the type shown in the picture and is carrying people to any part of the city for a fare of 5 cents. The carmen are depending on the auto-bus to help win the strike.

Tombstone, Ariz., July 24.—A most important capture was reported to Under Sheriff Hopkins today when notified of the arrest of George Musgrave, a famous and much wanted outlaw, Ranges Olds and Kidder made the capture in the Huachuca mountains today and will bring their prisoner to Tombstone this evening.

Musgrave, should he be the much wanted man, is a member of the famous Black Jack gang, who terrorized New Mexico for many years and is reported to have made an appalling record of train hold-ups, killings and outlaws during their career. They engaged in many fights with pursuing possees and many aged to escape. In later years they were hard pressed by the officers and the famous band left New Mexico and made a last effort in an attempted bank haul at Nogales several years since, the exciting episode still being remembered by many. The attempted bank robbery was a failure, although well planned, and the band scattered broadcast, nothing more being heard of them until today when the capture of Musgrave was reported.

Wanted in New Mexico.
The New Mexico Black Jack band had an ally in a similar band, who operated in Cochise county, Arizona, about the same time, but beyond a hold-up reported at San Simon, it is not thought the Musgrave band attempted any outlaws in this county, confining their work to New Mexico and Texas.

No charges are of record against Musgrave in this county, but he is wanted in New Mexico for murder and train robbery, while it is claimed Texas has also several counts against him and members of his band.

The prisoner arrested by the rangers will be brought to Tombstone and he will be held here until the New Mexico officers are communicated with.

HUMORS IN THE BLOOD
Coming of Warm Weather Forces Them Out, Causing Itching, Burning Skin Eruptions.

The blood and skin are so closely connected that whatever affects the one has a corresponding effect on the other. When the blood is pure and healthy the skin will be soft, smooth, and free from all eruptions; but when the blood becomes infected with some unhealthy humor the effect is shown by rashes, eruptions, boils and pimples, or other disfiguring and annoying skin disease.

The skin is provided with countless pores and glands which act as a drainage system to rid the body of impurities through the perspiration that is constantly passing through these little tubes. There are other glands that pour out on the skin an oily substance to keep it soft and pliable, otherwise it would become hard and dry from constant exposure to wind and sun. When the blood becomes filled with humors and acids these are thrown off through the pores and glands, burning and irritating the skin and drying up the natural oils so that we have not only Acne, Eczema, Salt Rheum, etc., but such dry scaly skin eruptions as Tetter, Psoriasis and kindred troubles.

These humors find their way into the blood through a disordered or deranged condition of the system. There is a certain amount of waste or refuse matter collected in the body every day. This is useless in nourishing or keeping the system in health, and nature intends that it shall find an outlet through the channels of bodily waste. As long as these members perform their duties properly the blood remains pure and free from infection; but when from any cause they become dull and sluggish, this refuse matter is left to sour and be taken into the blood in the form of humors and poisons. The skin is a perfect index to the blood; when we see one afflicted with a skin disease, or pimples, rashes, eruptions, blotches, etc., constantly appearing, we know that down deep in the blood a humor has taken root, and instead of supplying nourishment and strength to the fine, delicate tissues of the skin, it is pouring out its acid and unhealthy accumulations.

The skin is not only affected by the humors generated within the system, but poisons from without, such as Poison Oak and Ivy, Nettle Rash, etc., as well as poisons from metals, acids, etc., enter through the open pores and glands, and so thoroughly do they take root in the blood that they are ever present, or return from year to year to annoy the sufferer.

The treatment of skin diseases with salves, washes, lotions, etc., is along the wrong line. True such treatment relieves some of the itching and discomfort, and aids in keeping the skin clean, but it does not reach the real cause of the trouble, and at best such things are only palliative and soothing.

A thorough cleansing of the blood is the only cure for humors in the blood. S. S. S., a gentle acting, safe blood purifier, made entirely of vegetable ingredients from nature's forests and fields, is the proper treatment. S. S. S. goes down into the circulation and neutralizes the acids and humors, thoroughly cleansing and purifying the blood, and curing skin diseases and affections of every kind. It supplies to the blood the fresh, nutritive qualities necessary to sustain the skin and all other parts of the body, and rids the blood of any and all poisons. S. S. S. cures Eczema, Tetter, Acne, Psoriasis, Salt Rheum, Poison Oak and Ivy, Nettle Rash and all troubles of the skin. TAILOR MISSING FROM ESTANCIA

Estancia, N. M., July 24.—(Special)—James Holtzclaw, a tailor employed by Joe W. Pettus of Estancia, has been missing since last Friday, and friends here have been unable to locate him. He came here from Dalhart, Texas, and has been in charge of the Pettus shop the past week, while the proprietor has been camping in the mountains.

It is alleged in Estancia that Holtzclaw carried away several new suits of clothing in a new suit case without leaving pay for them. He told friends here that he was going out to his ranch, but he has not yet been located.

'FRISCO NON-UNION CARMEN CAUSE MANY WRECKS

San Francisco, July 24.—Eighteen smashups in one day. This is the record of the non-union carmen operating the "United Railroads" lines here. The accompanying picture gives an illustration of the handling of the cars by the non-union men. In this instance a Hoffman street car got beyond the control of the motorman while going over the 24th street hill, jumped the track and plunged to the bottom, leveling five telegraph poles on the way.

The striking carmen declare that at least half of the cars of the company are disabled.
